 - 2010 Guest lecturer and guest critic at the Georg Simon Ohms Hochschule Nuremberg
 - 2015 Silver Medal of the City of Vienna
 - 2015 Grand Austrian State Prize
- Member of international architectural juries

OFFICE PROFILE

Two large-scale housing projects in Vienna were the first buildings designed and realized by the architects: the Beam, built in 1998 and the Mischek Tower, which had been completed two years later. During the last almost 30 years of existence, the studio Delugan Meissl Associated Architects realized numerous further projects, among them the Global Headquarter Sandoz of the Novartis Company (2003), Ray1, the often-published house on a rooftop near Vienna's city center, the City Lofts and the High Rise in the Wienerberg district. Besides multiple successes in international competitions, Delugan Meissl Associated Architects' contribution to the 2006 Architecture Biennale in Venice, as well as to the first Architecture Biennale in China – with an apartment realized in Phoenix City of Beijing – attracted high attention. Further achievements on national as well as international level include many social housing projects or cultural buildings such as the Porsche Museum in Stuttgart (completion in 2011), the EYE Film Institute Netherlands (opening end of 2011) or the Festival Hall in Erl, which was completed at the end of 2012. The Campus of the Vienna University of applied Sciences (completed in 2009), the refurbishment of the Tourist Info Albertina in Vienna (opened in November 2014) or the Geriatric Centre Donaustadt (completed in Autumn 2014) are further important projects of the studio. In July 2015, DMAA won the 1st prize in the competition for the refurbishment of „Badisches Staatstheater“ theatre in Karlsruhe. Among further accomplishments: win of the 1st prize in the competition for the new Campus Tower in HafenCity Hamburg.

ARCHITECTURAL APPROACH

The architecture of Delugan Meissl Associated Architects is much like language, in which meaning is constituted by the relationships among individual words. In contrast to other architectural philosophies, Delugan Meissl Associated Architects do not reduce this principle of hermetic language to a game in and of itself, but rather, they root their work with as many multivalent relationships between architecture and its contextual environment as possible, premiating the context of the building and the physical presence of its users.

Directed and rigorous processes of design are guided from spatial perception to future users. Their architectural concepts and connections to the existing fabric are reminiscent of organisms entering into dialogue with the environment, as integral parts of an overall system. Inside and out, their concepts break down the order of conventional rooms into flowing, functionally defined spatial sequences. Independent of size or function, the work of DMAA is consistently determined by these theoretical principles. In this regard, Delugan Meissl Associated Architects are committed to developing the principle of intensification, along with ways to spatialize it and make it physio-logically tangible. As opposed to a type of representational form of contemporary architecture that is geared primarily to the visual and to interpretive meaning, actual form is generated, which, in its physiological effects on the senses and the body, with the aim, to be a regulator of the rhythm of social and individual life.

PROJECT SELECTION

Built Projects

- Residential development “Beam”, Donaucity, Vienna [1998]
- Residential development Grundaecker, Oberlaa, Vienna [1998]
- House J, Absam, Tyrol [2000]
- Mischek-Tower, Donaucity, Vienna [2000]
- Office and Residential Building Wimberggasse, Vienna [2001]
- Residential Building Paltramplatz, Vienna [2002]
- Global Headquarters Sandoz, Novartis Company, Vienna [2003]
- House Ray1, Vienna [2003]
- Residential development “Kallco City Lofts”, Wienerberg, Vienna [2004]
- Apartment Unit 8-II, “Deep Surface”, Phoenix City, Beijing [2004]
- Apartment High-Rise Wienerberg, Vienna [2005]
- Residential Building Steigenteschgasse, Vienna [2006]
- Apartment Oberlech, Vorarlberg [2006]
- Men’s Fashion Shop ‘Helmut Eder I’, Kitzbuehel, Tyrol [2007]
- Residential Building Seitenberggasse, Vienna [2008]
- Women’s Fashion Shop ‘Helmut Eder II’, Kitzbuehel, Tyrol [2008]
- Porsche Museum, Stuttgart [2008]
- ci17, Austria [2009]
- Residential Building “Simply 11”, Simmering, Vienna [2009]
- Residential Building „Brauerei Liesing“, Vienna [2009]
- FH Campus, Vienna [2009]
- EYE Film Institute Netherlands, Amsterdam [2012]
- Headquarters Funeral Parlour “B&F Wien, Bestattung und Friedhoefe GmbH”, Vienna [2012]
- Festival Hall of the Tiroler Festspiele Erl, Tyrol [2012]
- Hospital Rudolfstiftung, Vienna [2013]
